Hazel Wood High School

20 January 2021

Dear all staff and pupils at Hazel Wood High School,

Thank you for having your Christmas Jumper Day and raising £283.00 inspired by Matthew Pullan. We are so grateful for your commitment and enthusiasm, the time and energy you put into raising these funds is appreciated beyond measure. We know that it is with the help of kind and generous people like you that we will find a cure. Please find enclosed a certificate to celebrate your achievement.

You may be interested to know that we are funding The Tessa Jowell BRAIN-MATRIX, led by Professor Colin Watts, who is based at the University of Birmingham. The first-of-its-kind clinical trial aims to propel our understanding of glioma brain tumours and treat them with better targeted drugs. The trial will have an adaptive design and will run at 10 centres across the UK.

Please do get in touch if we can help in any way or if you would like more information (01252 749043 or fundraising@thebraintumourcharity.org). We are grateful for any help, whether through regular giving, leaving a gift in your Will, fundraising, volunteering or speaking about the cause.

Thank you once again for your kind support which is helping us intensify the fight against brain tumours.

With kind regards

On behalf of your Community Fundraising Team
