

Our teachers will be entering Teach Assessed Grades (TAGs) for year 11 results. This is based on a rounded picture of **evidence** to show how that pupil can prove they could achieve that grade. There is a range of evidence that our students can collate to say that they can meet that grades assessment criteria. We encourage you to tell your student to find all of their work that they may have at home and give to their subject teacher. It could be that this work is important to help them evidence their grade. If you would like to discuss this further please book an appointment with the teachers on Year 11 parents evening on the 29th April.
